Email Address: [REDACTED]

Comment: Making something as unimaginable as the West Lake Landfill even more horrific is the location of the site WITHIN A MAJOR METROPOLITAN AREA (St. Louis County) bordered by the Missouri River (and its floodplain) on the NW and Lambert International Airport on the SE and then encapsulated by FOUR MAJOR METROPOLITAN HIGHWAYS (Hwy 70, Hwy 270, Hwy 141, Hwy 370). If Scott Pruitt and the other administrators making the remediation decisions on this disastrous site don't think the dangerous proximity of the combined radiation, underground fire, and drinking water source to any human being is enough to WARRANT FULL REMOVAL OF THESE CARCINOGENIC TOXINS then perhaps they should agree to live, indefinitely, in houses within a one-mile radius of this site.
